The Whole Works!

Shiloh Sharps Sporter Rifle:

45-90 with full Octagon barrel and nice wood. It is used and looks like it. That's the way a Sharps is supposed to look.

It has MVA long range Buffalo sights and inserts. The barrel is a Shiloh barrel and is in excellent shape and shoots extremely well.

A few bullet molds and handles, mostly Steve Brooks' moulds

Over 400 pieces of stretched Remington brass from Dave Gullo

RCBS Lubri-sizer

RCBS Dies. The dies have picked up a little rust since I moved back to Pennsylvania.

Very nice drop tube. Oak and brass

Wad Cutter for use in a reloading press

Bullet Lube

Custom range box like the ones from Cal-Graf

Two sets of cross sticks, Prone and sitting

Range Cart

Cleaning Rod and anything else I can find lying around.

I am located in Cochranon, south of Meadville, Pa. I am asking \$3,000.00 for the whole works.
